EPIC ■ MRA: New Poll on Gun Safety Issues and Proposals

**600 Sample Live Operator Statewide Survey conducted August 18 through August 23, 2022.
Included 70% cell phone only respondents - Margin of Error 4 points.**

- *Two-thirds of Michigan voters support enacting stricter gun safety laws and/or laws aimed at preventing gun violence in Michigan.*
- *Of 13 specific gun safety proposals tested, 8 were supported by a majority of Democrats, Republicans, Independents, gun owners, CPL license holders and NRA members.*

Lansing, MI - In a newly released **EPIC ■ MRA** poll of Michigan voters, 43% said current Michigan laws regarding the purchase and ownership of guns are NOT strict enough, 42% said they are about right, and only 7% said they are too strict.

When asked if it is more important to protect the rights of people to own firearms or to address gun violence, 49% said addressing gun violence was more important, with 41% saying it is more important to protect the rights of people to own firearms.

When asked how much of a priority it should be to enact stronger state laws in Michigan to place additional restrictions on gun ownership and use, 65% said it is important, including 30% who said it should be a top priority.

(MORE)

Of 13 specific gun safety proposals tested in the poll, the following 8 were supported by Democrats, Republicans, Independents, gun owners, CPL license holders and NRA members:

- Requiring background checks on all gun sales, including sales at gun shows and other private sales is supported by 90% (78% strongly), including 97% of Democrats, 90% of Independents, 87% of gun owners, 82% of Republicans, 81% of CPL holders and 69% of NRA members.
- Enacting a child access prevention law that would hold gun owners accountable for the safe storage of firearms is supported by 82% (57% strongly), including 93% of Democrats, 76% each of Independents and gun owners, 75% of Republicans, 72% of CPL holders and 63% of NRA members.
- Preventing sales of all firearms to people who have been reported to law enforcement as dangerous to themselves or others is supported by 80% (63% strongly), including 92% of Democrats, 80% of Independents, 78% of gun owners, 73% of CPL holders, 69% of Republicans, and 65% of NRA members.
- Requiring a waiting period of at least 3 days after a gun purchase before it can be taken home is supported by 79% (59% strongly), including 94% of Democrats, 76% of Independents, 75% of gun owners, 65% of Republicans, 63% of NRA members and 61% of CPL holders.
- Imposing criminal penalties or fines for those who buy firearms for another person is supported by 78% (59% strongly), including 88% of Democrats, 79% of Independents, 78% of gun owners, 75% of CPL holders, 71% of NRA members and 67% of Republicans.
- Requiring a person to be age 21 instead of 18 to be able to purchase an assault-style weapon is supported by 75% (64% strongly), including 92% of Democrats, 69% each of Independents and gun owners, 65% of NRA members and 61% each among Republicans and CPL holders.
- Establishing a court-issued protection order called an “extreme risk protection order,” is supported by 73% (44% strongly), including 88% of Democrats, 74% of Independents, 67% of gun owners, 65% of CPL holders, 61% of Republicans, and a 47% to 43% plurality of NRA members.
- Requiring a person to be age 21 instead of 18 to be able to purchase *any* firearm is supported by 67% (52% strongly), including 86% of Democrats, 59% of CPL holders, 58% of gun owners, 54% of Independents, 52% of Republicans and 51% of NRA members.

A 9th gun safety proposal, which would ban all firearms from schools and college campuses, except for those of law enforcement officers, is supported by 72% (57% strongly), including 91% of Democrats, 69% of Independents, 66% of gun owners, 57% of CPL holders, and 54% of Republicans. A narrow 51% to 45% majority of NRA members opposes the proposal.

- Banning high-capacity ammunition magazines that hold more than 10 bullets is supported by 57% (43% strongly), including 82% of Democrats, 61% of Independents, and a narrow 47% to 46% plurality of gun owners, with Republicans, CPL holders and NRA members opposed.
- Banning all assault-style weapons, such as the AR-15 and similar semi-automatic rifles, is supported by 55% (45% strongly), including 84% of Democrats, a 50% to 47% majority of Independents, with Republicans, gun owners, CPL holders and NRA members opposed.
- Equipping teachers and school staff with concealed firearms to deter and respond to school shootings is supported by 47% of all voters, and opposed by 44%, including 67% of Democrats and 55% of Independents, with Republicans, gun owners, CPL holders and NRA members supportive.
- Allowing gun manufacturers to be sued for liability by private parties is opposed by 56%, with 65% of Democrats supportive and Republicans, Independents, gun owners, CPL holders and NRA members opposed.

“When Democrats, Republicans, Independents, gun owners, CPL holders and NRA members support 8 of 13 proposals and a 9th is supported by all groups except NRA members, there is absolutely no excuse for legislators to oppose these common-sense gun safety proposals, including Democratic and Republican legislators,” said Bernie Porn, President of **EPIC** ▪ **MRA**. Porn also said, “the solid majority of voters who support almost all of these proposals should ask candidates, including their state senators, state representatives, and other candidates running for legislative offices, if they support or oppose these proposals. If candidates say they don’t, voters should tell them they will not get their vote.”

In fact, 33% of voters said they would be *less likely* to vote for candidates who oppose extreme risk protection orders, including 50% of Democrats, 35% of NRA members, 32% of Independents, 31% each of gun owners and CPL holders, and 19% of Republicans. Also, 38% said they would be less likely to vote for candidates who opposed legislation that would impose a fine or jail sentence for negligently storing a firearm which a minor is able to access, including 54% of Democrats, 39% of Independents, 35% of NRA members, 27% of gun owners, 25% of CPL holders and 24% of Republicans.

Thinking about recent mass shootings, including Oxford, Michigan, 54% of all voters said they are more likely to vote in November (43% much more likely), including 74% of Democrats, with much lower percentages for other groups, ranging from 38% of Independents to 52% of CPL holders.

“It has been nine months since the tragic gunning down of four students at Oxford High School and the legislature has done nothing to curb gun violence in Michigan,” said Molly Sweeney of 482 Forward. “I have given birth to my new son in the time since the Oxford High School murders. I don’t want my child, or any parent’s child, to face the constant threat of being gunned down in their school or in their neighborhood. The people of Michigan support stricter gun laws. Our legislature needs to act now, and it shouldn’t take another nine months and the birth of another vulnerable child.”

GUN SAFETY QUESTIONS ASKED WITH KEY BREAKOUTS

“Do you think current Michigan laws regarding the purchase and ownership of guns are too strict, not strict enough, or about right?”

ALL		DEMS	REPS	INDEP	OWN GUNS	CPL HOLD	NRA
7%	Too strict	3%	13%	4%	7%	10%	16%
42%	About right	16%	63%	50%	58%	65%	65%

Please note: the following questions on two proposals, and their follow-up questions, were presented in rotated sets to respondents.

“Now I would like to describe two legislative proposals under consideration in Michigan...”

[One/Another] proposal would establish a new type of court-issued protection order called an “extreme risk protection order.” The proposal would allow a family member or law enforcement official to petition a court requesting an order to prohibit a named person from purchasing or possessing a firearm for a period of one year, and upon petition to the court, could be renewed. To grant such an order, the court would have to be presented with clear evidence that the person named poses a significant risk of injury to oneself, or others, by possessing a firearm. If a court order is issued, the person considered a risk would be entered into databases maintained by state, federal and local law enforcement agencies, and any firearms owned by that person would be taken and kept by law enforcement. Anyone subject to such an order would have the right to ask the court to rescind or modify the court order. Violation of the court order or knowingly filing false evidence could result in a fine and/or criminal penalty. Do you support or oppose this proposal?” **[IF SUPPORT/OPPOSE, ASK: “Would that be strongly or somewhat (*support/oppose*)?” AND CODE BEST RESPONSE]**
